## OVERVIEW

World Evangelism is a work of the churches of Christ that has been reaching the masses effectively since 1962 with the gospel of Christ. World Evangelism reaches the world with the gospel through radio, TV, Internet, massive distribution of literature, foreign Bible schools, and campaigns abroad. The Voice of Truth International is the prominent facet and most recognized part of World Evangelism to American brethren. Around 40,000 copies in several languages are printed quarterly and distributed all around the world. Other areas of World Evangelism include the Global Harvest magazine and other publications and distribution of thousands of books, tracts, and other literature annually. These efforts result in hundreds of responses daily and several hundred conversions annually.

Team members work under the oversight of an overseeing eldership, and congregations and Christians voluntarily cooperate in mass evangelism efforts abroad. The Liberty church of Christ of Dennis, MS oversees the literature production and distribution as well as the foreign radio and TV programs. The Springer church of Christ of Hohenwald, TN oversees Shane and Emily Fisher as they work with various facets of the World Evangelism programs.

The following foreign Bible school efforts include:

- Myanmar Bible School
- World Evangelism Bible School
- J C School of Evangelism
- Bear Valley Extension schools
